Copy of Aerial Runway Code FS120006
Sep 02 Edition no 5

Check equipment against this at the start and end of your session and report anything missing or broken.

Leader requirements:

One competent person must take overall charge of the activity and ensure the equipment is in good order and used in a safe manner. This should only be attempted by a Leader with considerable experience of building pioneer projects.

Guide to use of equipment:

The aerial runway must be constructed in accordance with POR and the Aerial Runway Code.

Please note that only Members of the Scout Association can be allowed to use the Aerial Runway.

Guide to risk for your risk assessment:

Risk of fall from height
Risk of object falling from height
Risk when lifting heavy ropes/poles
Risk of equipment failure
Risk to spectators
